Instructional Designer

Mission Statement

It is my priority as an instructional designer to provide engaging eLearning content to encourage students and trainees to reach learning goals; develop accessible, universally designed materials and contribute to educational material for those who study in virtual settings. I bring a unique perspective to the development process and have proven the ability to apply strong learning theories for effective eLearning products.

Education

July 2018 - May 2020

Master's of Science in Instructional Design

Quinnipiac University

Studied K-12 learning theories and the complete instructional design process as it pertains to elementary and higher education.

Work Experience

April 2020 - June 2020

Instructional Designer & Technologist

Environmental Protection Agency (EPA)

- Executed SAM instructional design process to determine student learning needs, in order to design and develop ADA/Section 508 compliant online courses.
- Met stakeholder expectations and provided project management material to maintain the timeline.
- Worked Directly with SMEs to determine course goals, learner objectives and online course design and development.
- Designed and developed Virtual Instructor Led Trainings (VILTs, Webinars).
- Applied appropriate learning theories and multi-media design theories to course development across numerous departments.
- Worked with Articulate Storyline as an instructional technologist.
- Completed the project in a 100% remote capacity, effectively and efficiently.

September 2019 -
January 2020

E-Learning Developer

Learning With Grace Tutorial - Crownsville, MD

- Executed ADDIE instructional design process to determine student learning needs, in order to design and develop a universally designed, accessible, online course.
- Met stakeholder expectations and provided project management material to maintain the timeline.
- Fully developed course curriculum.
- Facilitated partner communications and email blasts for course launch.
- Applied appropriate learning theories and multi-media design theories to all course material.
- Developed assessments and user polls to evaluate course effectiveness, altering content and delivery to achieve student learning goals.

June 2019 - February 2020

Instructional Designer

Better With Rose - Bowie, MD

- Designed and developed animated informative videos for client education.
- Website Design Consulting - Assisted initial design and development of the website, including wireframes. After the launch, cleaned up the user interface.
- Online Course Creation - Worked closely with President of Better With ROSE, developing online virtual coaching and job aids.
- Training Document Creation and Revision - Aided in graphic design for supplementary materials.
- Maintained approximately 30 learning documents, applied adult learning theories and graphic design principles.

Skills

Instructional Design | ADDIE | SAM | E-Learning Development | Video Development | Graphic Design

Proven Knowledge of Adult Learning Theories | Works Efficiently On Teams & Independently | Quick Study for New Software and LMS

Software Tools

Articulate 360 (Storyline & Rise) - Corporate Training, eLearning, Evaluations | Adobe Captivate 2019 - Complete Courses, Modules, Interactive Evaluations | Camtasia - Segmented Video Presentations, Tutorials | Microsoft & GSuite Office Suites | Blackboard LMS | Zoom & Skype for Business Video Conferencing | Google Hangouts | Dropbox | Powtoons & Vyond - Animated Videos | Prezi Presentations | Canva
